P	Obtained through Prospecting but not mining

Notes	
We use the term "gemstone" to distinguish the raw stones from cut "gems"	
Gemstones also drop from monsters and chests - these are also legitimate "sources" but are too numerous to list	
Ancient Gem Veins (patch 2.1) are located in Mount Hyjal Summit, Caverns of Time	
The Epic grade Outland gemstones (Crimson Spinel, etc.) also drop from mobs in the Black Temple	
Prospecting is a Jewelcrafting skill learned from a trainer at skill level 20	
Special Ores (green-labelled) Silver, Gold, Truesilver, Dark Iron, Nethercite, Khorium and Titanium cannot be Prospected	
Silver, Gold and Truesilver mines drop gemstones only about 1% of the time, if that.
