## Mounts

Engineering has new, and even more silence-shattering crafted mounts: motorcycles. These are swift ground mounts.

- Mekgineer's Chopper (Alliance) Level 80, Riding 150, Engineering 450. Recipe is from Alliance Vanguard Quartermaster at Exalted
- Mechano-hog (Horde) Level 80, Riding 150, Engineering 450. Recipe is from Horde Expedition Quartermaster at Exalted

Tailoring has joined the mount-crafting ranks with the new Flying Carpets, all of which require Tailoring, Level 70, and the appropriate flight training to be ridden:

- 410 Flying Carpet (Expert Riding)
- 420 Swift Flying Carpet (Artisan)
- 450 Swift Ebonweave Carpet (Artisan)
- 450 Swift Shadowweave Carpet (Artisan)
- 450 Swift Moonshroud Carpet (Artisan)

Basic carpet recipes are from trainers, but the recipes for the 3 specialist cloth carpets have not yet been seen.
